

COVID-19

Information for Students and Tutors

Four Rules that all must follow:

Cleanse your hands well and regularly with Soap and with Gel.

Observe Social Distancing.

Bring and use a suitable Face Covering to be worn in company.

Take extra care with what you touch and your interactions.

Many, many measures are in place both front of house and behind the scenes. *All are based upon one or more of these four basic rules. If followed everybody can stay as safe as possible without squashing the pleasure of a Higham experience.*

Additional notes:

- Please arrive only after 4pm for residential – we have more to get ready.
- New special procedures for Dining Room, Bar etc. will be explained on arrival.
- Hand gel is available at key points around the building.
- Bathrooms upstairs are currently reserved for individual bedrooms.
- Workrooms each have sanitiser spray and paper towels for surface cleaning.

All our measures have been meticulously risk-assessed and thought-out under official guidance to allow activity to continue at Higham whilst maintaining a balance of enjoyable atmosphere and safety for all. We rely on everyone's kind cooperation.

Staff are following the Four Rules and more besides, including temperature checking, working in 'bubbles' on flexible shifts, limiting their access around the building etc.

We're all playing our part to ensure that life goes on, even with enhanced infection control measures.

Thank you for sharing our common-sense approach to keep Higham 'healthy'.
